Teleclass Leader:

What is a TeleClass?

A TeleClass is a conference call, like a chat line. It is highly interactive with some lecture, some questions and some discussion. You will receive timely tips, tools, strategies and techniques over the telephone that can benefit your life and business immediately. Some classes are free and some have a fee.

How Does It Work?

Teleclass sessions are usually one hour long, sometimes discussions-based ,and occasionally lecture-based. Just like a live seminar, students may participate as much-or as little -as they wish.

You do not need a computer in order to be in the class. All you need is a regular phone. The cost to call a bridge line is a standard long distance charge. There are no conference fees. All you do is pay your long distance carrier whatever your rates are. Most carriers charge \$3-6 an hour for long distance, so the cost is minimal.

Teleclass Sessions

- *“The Nine Principles for Joyous Living.”*
- *“Are You Living the Life You Want? –Success is Your Birthright!”*
- *“How The Body Gets Our Attention Through Pain.”*
- *“Are Your Ready to Have a Joyful Relationship?”*
- *“Forever Young!”*

Marlene's practice includes on-site as well as online and telephone counselling and workshops/teleclasses.

Anger and resentment holds us hostage and can be seen as a sack of rocks strapped to your back as you pursue your path in this life. Forgiveness removes the burden which eases you on your journey.

Workshop Series: Mothering and Me

Workshop One

Creating

In this introductory workshop, Marlene explores the variations of the most primal relationship between human beings: mother/child/mother. Regardless of the quality of the relationship you have with your mother or you have with your children, this inspirational and interactive workshop will shed light on how the quality of that relationship can always improve using the techniques learned in this class.

Workshop Two

Communicating

The creative process continues as Marlene guides you through the fundamental principles of clear and effective communication particularly in this often emotionally charged association. Apply these principles to all of your communications, relationships, and particularly to any carrying baggage from the past. You will learn how to enjoy the bond between you and another person, particularly as a mother or with your own mother, or your mother-in-law. Enhance every relationship with clarity of purpose, understanding of intent, and positive emotion which you will be able to communicate more effectively after taking this workshop.

Workshop Three

Caring

Caring for and about each other is the basis for any good relationship, and is always present in the mother/child/mother paradigm whether it's obvious, or not. Whether your mother was a "good" mother, a "bad" mother, or an "absent" mother, the element of caring is always present. Even if it's expressed in feelings of guilt because you don't think you care about each other. Marlene examines the dynamics of abuse and abandonment, and nurturing and loving from an entirely new perspective. If this third element is missing in your primary relationship, learn how to restore it for your own benefit, your children's benefit, as well as your mother's.
